Example: the product you sold weighs 0.5lb. can be shipped in an envelope that cost \$0.15 and shipping according to USPS first class is \$3.4. the cost per sale (1 item) will be:

	Manual orders	Buying your own postage	Customer with integration
Postage	3.4 x 1.08 = 3.67	-----	3.4 x 1.08 = 3.67
Postage handling	0.5	0.3	0.2
Packaging cost	0 / 0.15	0 / 0.15	0 / 0.15
handling	2	2	2
Total (when you by your packaging material)	6.17\$	2.30\$	5.87\$
Total including packaging	6.32\$	2.45\$	6.02\$

Package costs

The cost of the package will be determined according to your product. Products can be packed in an envelope-bag (gray bags), a padded envelope or a box. Prices will be determined according to the size of the product.

	XS	S	M	L	XL
Envelope	0.1	0.15	0.4	0.6	0.85
Padded envelope		0.35	0.6	0.75	1

Brand

\$0.4 per item to be included in the customer's package.

For example: a sticker with a logo that will be attached to the package, a business card, a flyer, etc.

The cost is the cost of the service only.

Bundling - Case

Packing several products together for sale as one unit.

Cost - ~~\$3~~ \$2 and includes up to 5 products in a bundle and does not include the cost of the wrapping material. Beyond 5, each additional item is \$0.3

For example - packing 5 toys together in a special box. If you take care of delivering the special boxes to us, the cost per package will be ~~\$3~~ \$2. If we need to take care of your special box, we will confirm the cost of the selected package up front.

The cost also includes barcode pasting.

Note: There is a discount on large quantities and work that is easier than usual. There will be extra charges for bigger items and complicated work.

Handling returns

\$3 per product - including a brief explanation of findings. If a more in-depth test is needed, the cost will be \$5 per product.

If it is discovered that the product is not fit for sale, we will destroy the product at no additional cost (assuming it is a product that does not require special treatment for destruction).

Storage services

Storage services in the USA - California. Storage of goods intended for sale only (we do not store goods that may spoil or require special care such as animals or products that require refrigeration).

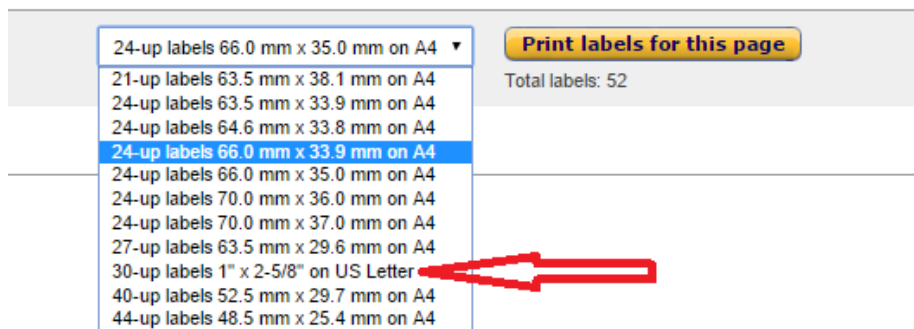

Cost: ~~\$2~~ \$1 per cubic feet per month (box of 30 X 30 X 30 cm).

The charge for the storage is made upfront every 1 per month (like rent). Goods received in that month, will be charged on the 1st of the month in full (for the upcoming month) + for the parts of the month that the goods were storage since they arrived. Goods that left our warehouse in the first 3 business days of the month will not be charged.

For example: 2 boxes that hold 5 cubic feet arrived to us on April 16. On the invoice that will be issued on May 1, you will see a charge of \$2.5 for the half month that the goods were with us in April + \$5 charge upfront for storage in May.

Labeling Barcode Labeling

The cost of affixing refers to Avery 5160 1" x 2 5/8" stickers (larger stickers will be priced at a higher cost depending on the size) When choosing the barcode, choose the option - 30-up labels 1" x 2-5 / 8" on US letter

0-100	101-500	501-1000	1001 and up
\$0.25	\$0.2	\$0.17	\$0.15

.Cost per unit + \$1 per box + \$1 per SKU (if there is more than 1)

Example – you sent us 50 boxes with 20 items in each (1 SKU) that needs new Barcode – $20 \times 50 = 1000 \times \$0.17 + \$50 = \220

Delete old barcode with marker or removing old barcode (not recommended) will add to the cost according to this table:

	0-100	101-500	501-1000	1001 and up
Delete	\$0.2	\$0.15	\$0.12	\$0.1
remove	\$0.5	\$0.45	\$0.40	\$0.35

inspection

The test we perform includes:

- Counting the Master boxes
- Opening a random box and counting the quantity of products
- Superficial inspection of the technical specifications - up to 10 points that can be inspected *
- Photocopy the product and send it by email
- Delivery of a single product to your address at list price less 10%

Cost - \$ 25

Quantity in Master box	Up to 50	51-100	101-500	501 and up
	including	\$0.1 per item	\$0.05 per item	\$0.03 per item

*Over 10 testable points, each additional \$1 (we check superficially. We do not check for example if the garment is indeed 100% cotton, or if the battery lasts 6.5 hours, etc.)

Example: The seller sent us 3 boxes each with 100 units. We open a random box and count. Take out a random product and test according to the specifications - red flashlight, size of 5 inches, AAA battery, loop at the end, black strip, option for strong light and weak light. Whatever you asked your manufacturer. Take a photo of the product, send it to you by email and if you want, pack it and send it to you.

The cost per work is $\$25 + \5 (for the rest of the 50) = \$30

Receiving of goods

\$2 \$1.5 per box up to 35 pounds. Over 35 pounds, depending on weight and amount of work required.

Handling the delivery of goods to Amazon

\$5 \$3 for first box, \$3 \$2 from 2nd box and up - Re-closing (if necessary), pasting Amazon postage and handling the boxes to USPS / UPS / FedEx

The cost of receiving refers to boxes up to a weight of 35 pounds, if the boxes exceed the 35 pounds the calculation will be made for each 35 pounds respectively (\$5 \$3 for the first 35 pounds and \$3 \$2 for the next 35 pounds or part).

In case there are many mixed SKUs, there might be an additional charge for sorting - \$5 per SKU + \$0.75 per box.

You will need to log in to your Seller Central account and purchase the postage from Amazon so that all the information required by Amazon appears on the label. We will paste the label on the boxes and transfer them to UPS / FEDEX.

Example: The merchant asked to send from the warehouse 3 boxes weighing together 120 pounds. The calculation for the service will be according to 35 pounds and not according to the amount of boxes - \$5 \$3 for the first 35 pounds and \$3 \$2 for the next 35 pounds = \$5 \$3 + \$3 \$2 X 3 = \$14 \$9

Additional costs:

- If the goods need to be arranged in specific quantities, \$ 0.15 per unit + \$1 per box (counting cost) will be added, a minimum of \$3 \$2 handling per box + box cost (depending on size, can range from \$1-\$7)
- If the goods need to be transferred on a pallet, the cost of the pallet (40 "by 48") and palletizing will be added - \$20
- If you are not able to use your seller account for postage, you can use our service. The cost will be the postage cost + 8%

Goods that remain with us for more than 3 days will be transferred for storage and will be charged at a cost of \$2 \$1 per cubic feet per month or partial month.

Counting and sorting

Counting - \$0.15 per product + \$1 per type + \$1 per box.

Sorting - \$0.3-\$1 per product + \$1 per type + \$1 per box. depends on the complicity of the work. Example – a box with 100 items and 30 different SKUs will be \$1 per item.

Payment for the customer

In case we need to pay on behalf of the customer (customs payment for example), the cost will be - the payment to be paid + 8% + \$20 when need to pay directly at the bank or \$10 for online transaction.

Address in America

\$10 \$8 per month, including notification of all mail received. You can also get returns directly from customers to this address.

Opening the mail item, scanning or taking a photo and sending it by email - \$3 per item

USA number service

~~\$15~~ \$12 per month. The cost includes forwarding the messages left in the mailbox directly to your email as an audio file.

One-time additional costs:

Add voice message instead of the auto-reply indicating the number -

* You prepare, record a voice message (wav format only) and send to us. One-time set up cost - \$ 10

* You prepare text in English (up to 50 words) + setup cost, the customer needs record a voice message (wav format only) and send to us - \$ 30

Incoming calls can be routed to an International number at a cost of \$0.05 per minute for a landline number and \$0.15 per minute for a mobile number.
